What is the HES Code?

During controlled social life conditions, **HES (Hayat Eve Sığar – Life Fits Into Home)** code helps you safely share your Covid-19 risk status with institutions and individuals for activities like transportation or visit. Shared HES codes can be checked through the app or services provided to institutions.

Hes code does not substitute travel warrant. **"You must apply for travel warrant through e-Government."** This code solely serves as a risk mitigant for infection in long distance transportation vehicles during travel. Covid-19 patients or contacted people will not be able to use public transportation. We use this code to inform you if anyone in the same vehicle is disgnosed as positive. **You have the full authority on generated HES codes. You can share your HES codes as long as you desire or you can delete them.**

How to get **HES Code?**

There are three ways:

1. Through Life Fits Home Mobile Application (ISO and Android):

The main page is opened on the HES application. "My HES Codes" button is selected. After selecting this button, the Generating Code screen opens up. On this page, press the "Add new code" button. After pushing this button, the application will ask you to enter a duration for your code.

Select a date. If required, enter your name. After selecting a date, the application will navigate you to a page where you can receive your HES code. f requested, the obtained HES code can be presented to the organizations/institutions. Through, this HES code organizations/institutions is able to know if you pose any Covid-19 risk.
